A graph showing the number of splicing junctions (in thousands) against the percent of total reads. The lines represent:
- **All junctions** (blue line)
- **Known junctions** (red line)
- **Novel junctions** (green line)

The x-axis represents the percent of total reads, ranging from 0% to 100%, and the y-axis represents the number of splicing junctions (in thousands), ranging from 0 to 15.
